

Notilus by DIMO Software and the Res@car solution sign an agreement

Limonest, July 1, 2016 - The Notilus solution by DIMO Software integrates the Res@car offer, a secure multi-rental company platform.

DIMO Software, the European leader in the Travel & Expense Management market with its Notilus solution integrates Res@car, a secure multi-rental company booking platform, distributed by VehiTel SAS. This integration will provide Notilus users with a wide selection of car rental providers. The Res@car solution is a platform that brings together all the major car rental brands (twelve member rental companies), offering a comprehensive, professional and free booking service.

This agreement between VehiTel and DIMO Software is part of a common strategy to offer enterprise customers access to a car rental offering that respects the travel policy in place.

For Bernard Amzelek, Chairman of Vehitel SAS :

"We are very pleased with this partnership with DIMO Software, the leader in the field of Travel & Expense Management software, with its Notilus solution. The agreement, which will enable customers using the Notilus software to book on the Res@car platform, is part of the development strategy of Res@car, set up by VehiTel SAS, through partnership agreements with the main players in the business travel sector".

For Gilles Bobichon, Director of the Notilus activity:

"Our customers wanted access to the widest possible vehicle rental offering while optimizing the financial aspects and respecting the travel policies in place. The partnership between VehiTel and DIMO Software allows them to access the entire multi-rental company offering via our Notilus solution without any go-between. In this way we are continuing our strategy to offer a wide choice of booking channels to our customers, while ensuring consolidation of information".

About Notilus

The leader on the Travel & Expense Management market, DIMO Software publishes the Notilus solution, software that allows companies to simply and efficiently manage the entire

business travel process: mission orders, online and offline booking, expense reports, supplier invoices, reporting, etc.

A complete offering to meet every need in the management of business travel and expenses. Notilus also meets the needs and specific features of the public sector and similar accounts.

Key figures: 1,500 customers, over 2 million users in 80 countries, a 100% French ASP solution.

About VehiTel SAS

A structure involving all the major car rental brands, VehiTel SAS distributes the Res@car solution.

Res@car is a B2B service provided by member rental companies to their clients - enterprises, assistance companies, long-term rental companies, travel agencies, tour operators, .etc. - who to book rental vehicles in real time.

This is a secure multi-rental company platform used by over 3,500 key account customers and about 15,000 one-off users (more than one million net bookings in 2016).

Res@car allows any professional client with the necessary credentials to access the relevant rental companies' booking systems in real time and to benefit from all of the services and features.

Res@car is available 7/7 and 24h/24. It is located in 22 countries, published in 5 languages, and adapts to the customer's technical environment and offers connections via the Internet through a secure web portal or directly from the customer's internal reservation computer system.

VehiTel SAS was founded 20 years ago, and now comprises twelve shareholding Res@car rental partners: ADA, AVIS, BUDGET, CAR'GO, ENTERPRISE, EUROPCAR, FRANCECARS, HERTZ, RENAULT RENT, RENT A CAR, SIXT and UCAR.
